

# SSA INSTRUCTION MANUAL

## Topic

---

How to update WordPress Plug-In?

## Description

This document describes the process of updating individual plugins to your website.

## Process

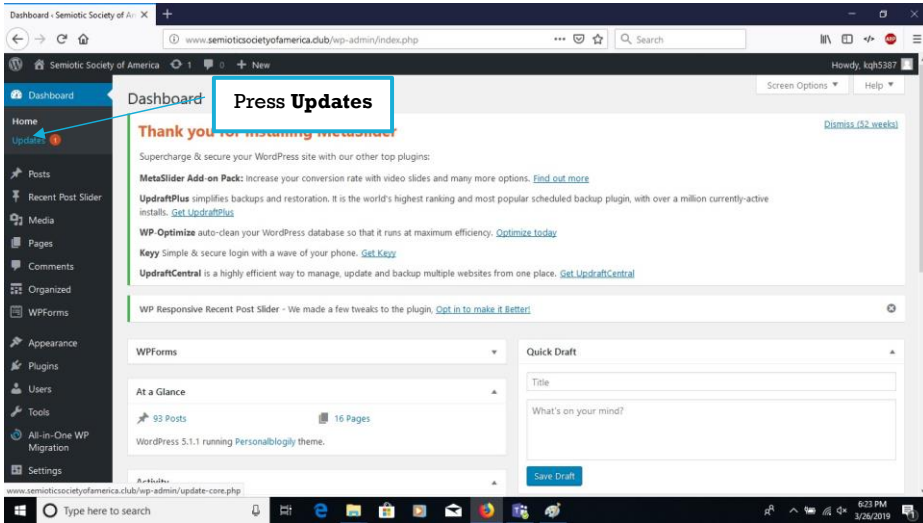

---

1. Press on the "Update" link under "Home" in the dashboard.
2. Any available updates will appear under **Plugins** or **Themes**. Click the box next to "Select All" to select all of the plugins or themes that are available to update. After everything is selected press the "Update plugins" and/or "Update Themes" button, depending on what is being updated at the time.
3. Dashboard will show that the **Plugin** or **Theme** has been updated when finished
